

THUSO COLLEN MUGERI

SOFTWARE DEVELOPER

P 082 547 8170 / 072 700 9595 **E** mugerithuso@gmail.com **A** 5855/8 Ililiba Section phomolang Thembisa **W** www.vhageri.netlify.app

OBJECTIVE

I am a motivated and dependable graduate in Mathematical Science with a major in Computer Science and Statistics, seeking an entry-level software development role to leverage academic knowledge and skills in real-world applications. Proficient in building mobile and web applications, I aim to contribute to innovative projects while growing professionally within your organization.

EXPERIENCE

2022 Jan – 2022 Dec

Group leader for final year project

- Developed a **Community Updates App** using React Native and Firebase.
- Integrated **Pay stack** API for secure and efficient payment processing, enabling users to make seamless transactions within the app.

2023 Jan – present

Individual project

- E-commerce website: Built a full-stack e-commerce web application with React JS on the frontend and Java with Spring Boot on the backend, utilized MySQL for database management and Firebase for real-time notifications.
-

EDUCATION

BSc math and computer Science

University of Limpopo | Completed Academic Requirements – November 2024 Awaiting Graduation.
